Candidates Day

Tuesday, October 28, Orrville Rotary Club hosted its annual Candidates Day luncheon. It was immediately evident by the large turnout that this year's election is highly charged for the candidates and voters alike. There were a total of 22 candidates in attendance, including 7 running unopposed. Due to time constraints the 15 remaining candidates were given three minutes each to address the

crowd. Artfully moderated by senior active Rotary member Jackie Brillhart, each candidate did their best to present their qualifications and goals for the office they are seeking. These offices include Wayne County Sheriff, Wayne County Commissioner, Ohio State Senator, Ohio State Representative, 9th District Court of Appeals and U.S. Congress. The candidates that spoke were (in no particular order) William Wellemeyer, Scott Wiggam, Bob Gibbs, Charlie Hardman, Ron Amstutz, John Boccieri, Terry Kline, Merle'Joe' Miller, Philip Carr, Tom Lyons, James Riley, Eve Belfance, and Jim Carmichael. Kirk Schuring and Thomas Maurer were unable to attend but sent representatives to present their case. We also heard from one local issue presented by Darin Wasniewski, director of Main Street Orrville, regarding the sale of wine by the glass. Apparently when prohibition ended in 1937 the law was written with wording that excludes the sale of wine by the glass though all other spirits are allowed.

Very Vegan

On October 14th Orrville Rotary was given a presentation by 16 year old Douglas Snyder, a junior at Orrville High School, about his experiences as an intern at Wooster's Cleveland Clinic this summer. Doug, son of Rotarian Steve Snyder, participated in a nine week program where he examined how a reduction in animal products in our diet affects the heart, arteries, and cholesterol.

As we enjoyed a completely vegan lunch prepared by Karen Fleck of Dunlap Community Hospital, Doug gave us a well prepared power point presentation, as well as a humorous video on unhealthy eating habits. He noted that heart disease is the leading cause of death in 99 countries around the world including America. In his four week study he had participants keep a food log. Lipids (cholesterol) were taken before and after the test period. The participants who followed a vegan diet showed a significant lowering of cholesterol. He also noted that HDL (good cholesterol) percentages went up even when the totals fell.

Douglas felt the intern experience was richly rewarding. He was at the Clinic from 8 to 5 Monday through Friday for the nine weeks and got to work with cardiologists and also to shadow doctors in other fields. Doug plans on being a doctor himself though he has not yet picked the specific field he will specialize in. Based on the quality of his presentation he should succeed in whatever field he endeavors.
