Did You Ever Wonder...

A wheel has been the symbol of Rotary since our earliest days. The first design was made by Chicago Rotarian Montague Bear, an engraver who drew a simple wagon wheel, with a few lines to show dust and motion. The wheel was said to illustrate "Civilization and Movement". Most of the early clubs had some form of a wagon wheel on their publications and

letterheads. Finally, in 1922 it was decided that all Rotary clubs should adopt a single design as the exclusive emblem of Rotarians. Thus, in [Continued on the top of the next column...](#) 1923 the present gear wheel with 24 cogs and six spokes was adopted by the "Rotary International Association". A group of engineers advised that the gear wheel was mechanically unsound and would not work without a "keyway" in the center of the gear to attach it to a power shaft. So, in 1923 the keyway was added and the design which we now know was formally adopted as the official Rotary International emblem.
